The Botanical Review 71(5): 507

Index to *The Botanical Review*, Volume 71: Authors and Titles of Papers

COMPILED BY CIARAN MOLONEY

Ansari, Abid Ali
Eutrophication: An Ecological Vision, 449–482

De Block, Petra
Palynological Characters and Their Phylogenetic Signal in Rubiaceae, 354–414

Dessein, Steven
Palynological Characters and Their Phylogenetic Signal in Rubiaceae, 354–414

Ebach, Malte C.
Drowning by Numbers: Reading Nelson's "Nullius in Verba," 415–447

Fuller, Dorian Q
Systematics and Leaf Architecture of the Gunneraceae, 295–353

Hickey, Leo J.
Systematics and Leaf Architecture of the Gunneraceae, 295–353

Hoogland, Ruurd D.
Index Nominum Familiarum Plantarum Vascularium, 1–291

Huysmans, Suzy
Palynological Characters and Their Phylogenetic Signal in Rubiaceae, 354–414

Khan, Fareed A.
Eutrophication: An Ecological Vision, 449–482

Lens, Frederic
Palynological Characters and Their Phylogenetic Signal in Rubiaceae, 354–414

Ochoterena, Helga
Palynological Characters and Their Phylogenetic Signal in Rubiaceae, 354–414

Reveal, James L.
Index Nominum Familiarum Plantarum Vascularium, 1–291

Robbrecht, Elmar
Palynological Characters and Their Phylogenetic Signal in Rubiaceae, 354–414

Schols, Peter
Palynological Characters and Their Phylogenetic Signal in Rubiaceae, 354–414

Smets, Erik
Palynological Characters and Their Phylogenetic Signal in Rubiaceae, 354–414

Vinkier, Stefan
Palynological Characters and Their Phylogenetic Signal in Rubiaceae, 354–414

Williams, David M.
Drowning by Numbers: Reading Nelson's "Nullius in Verba," 415–447

Wilson, Carl L.
The Telome Theory, 485–505

Issued 21 December 2005

The Botanical Review 71(5): 508

Index to *The Botanical Review*, Volume 71: Subject Index

Compiled by Ciaran Moloney

Aquatic plants
see Eutrophication

Binary characters, 421–425
Biogeography, 296, 301, 419
historical, 298, 336–338, 340
Bioindicators, 466–468

Cauloids, 486, 488
Cladistics, 417–425
Gunneraceae, of, 327–331
pollen characteristics, and, 388–391

Detergents, 460–461
phosphorus free, 475
synthetic, 460–461
see also Eutrophication

Eutrophication, 449–482
control of, 468–471
biological, 469–470
legislation, 471
mechanical, 470–471
definition of, 452
Evolution
theory of, 415

Fossil record
Gunneraceae, 296, 299, 300, 310, 320, 323, 325, 331, 336–340
pollen, 375, 379
Fusion (webbing), 491, 493–494, 497, 502

Heterostyly, 373–374
Homology, 415–426
Nobel Prizes and, 416–417, 419–420
relationships and, 421–425

Incurvation, 493–494
Index Nominum Familiarum Plantarum Vascularium, 1–291
class names, 233
divisional names, 232
family names, 7–232, 256
ordinal names, 242
subclass names, 236
subdivisional names, 232
subkingdom names, 232
superdivisional names, 232
superordinal names, 238

Lakes
see Eutrophication

Numerical taxonomy, 420–421

Orbicules, 375, 380, 391
phylogeny, and, 388
Overtopping, 485–487, 491, 493, 494, 497, 502

Phosphorus
cycle, 458–459
eutrophication, and, 450–475
monitoring of, 458
role of, 457–458
sources of, 458
Phylloids, 488, 489, 502
Phylogenetics, 416, 418, 421, 426
Gunneraceae, of, 331–334
Planation, 491, 493–494
Pollen morphology, 351, 362–373
dimorphism
see heterostyly
evolution, of, 300, 391
Primitive land plants, 486–490, 492

Systematics
Gunneraceae, 296–352
morphology, and
leaf architecture, 310–320
pollen, 379–391
systematic morphology, 417–419, 421

Telome theory, 483–503

Water cycle, 395–396
